PROFILE

ECE graduate seeking an entry-level IT support or junior Linux administration role. Uses Arch Linux as a personal desktop and has hands-on practice with pacman configuration, application update investigation, and package dependency checks with pactree. Brings clear communication from current part-time teaching work and an interest in growing into software development.

RELEVANT SKILLS

Linux: Arch Linux desktop use, Omarchy, pacman update configuration, package and dependency review (pactree), command-line maintenance (foundational).
Support practice: investigate software update behavior, review package changes, and inspect dependencies before cleanup.
Technical foundation: computer networks and network security coursework, hardware and embedded systems coursework, Git and GitHub project workflow.
Software interest: responsive UI iteration; foundational familiarity with React, TypeScript, Astro, Tailwind CSS, and Python through portfolio projects and coursework.

LINUX PRACTICE

Arch Linux Workstation Maintenance | Personal practice

Arch Linux, pacman, pactree

- Reviewed package-manager update configuration while investigating application update behavior.
- Used pactree to check dependency relationships before considering orphaned-package cleanup.
- Maintains a customized Linux desktop environment for daily personal use.

SELECTED PROJECTS

S.M. English School Website | Personal project

Astro, Tailwind CSS, Supabase authentication prototype

- Created a responsive multi-page website MVP with an admin sign-in prototype.
- Source: https://github.com/Zynxx777/sm-english-school-web

ZYNX Portfolio | Personal project

React, TypeScript, Vite, Three.js

- Iterates on an AI-assisted portfolio codebase with manual UI, responsive layout, and content changes.
- Portfolio: https://zynx-portfolio.vercel.app/

EXPERIENCE

Music Teacher (Part-time) | St Sophia Convent High School

Karnataka, India | August 2026 - Present

- Teach music to school students on a part-time schedule; current work alongside an IT career transition.

EDUCATION & TRAINING

B.E. Electronics & Communication Engineering | Don Bosco Institute of Technology

2021 - 2025 | CGPA: 7.16 / 10

- Relevant study: computer networks, embedded systems, electronics, and digital design.

Selected coursework: Network Security (February 2025); Python Programming Basics (July 2024). 7chats Messenger bug bounty contest recognition (September 2021) is listed in existing resume materials.
